

5 OF CLIPS  
15020-96  
IN AREA  
CLIPS

22A5020 (REF)

22A5021 (REF)

The diagram shows a side profile of a helmet shell. A dashed line outlines the shell's contour. A solid line with a cross-hatch pattern represents a reinforcement or clip area. A callout line points from the text '5 OF CLIPS 15020-96 IN AREA CLIPS' to this area. Two other callout lines point to specific parts of the shell: one to a small circular feature labeled '22A5020 (REF)' and another to a larger, more complex feature labeled '22A5021 (REF)'. The helmet shell is divided into several rectangular sections by solid lines.
